

Friday April 13<sup>th</sup> to Sunday April 15<sup>th</sup>

# ICCU 2012 Rome

4<sup>th</sup> International Conference of Cellvizio® Users

ICCU has always been a physician-led forum focused on highlighting the future developments of pCLE and the benefits of real-time disease characterization. The 4th annual edition promises to continue in this spirit. The entire conference agenda has been rethought and designed to accommodate our growing users Cellvizio community which includes GI endoscopists, pulmonologists, urologists and surgeons. The objective remains the same: to encourage and foster clinical development through the use of pCLE by enriching the knowledge and clinical skills in the management and treatment of patients.

## PRE-PROGRAM

ICCU 2012 - April 13th to 15th - Rome, Italy

Friday, April 13<sup>th</sup>
